**RENEWED PETITION UNDER 37 C.F.R. §1.47(a)
FOR UNAVAILABLE INVENTOR**

This responds to the Decision dated November 30, 2006, of the U.S. Patent and Trademark Office dismissing Applicants' Petition under 37 C.F.R. § 1.47(a) for Unavailable Inventor filed September 6, 2006.

The inventors of the above-referenced application are Aristedis Anthony Ikiades, David John Armstrong, Mary Konstantaki, and George Graham Hare. Mr. Hare cannot be located to sign the Combined Declaration and Power of Attorney (Declaration). Enclosed herewith are three Statements of Facts in Support of Filing on Behalf of Unavailable Inventor.

One of the supporting statements is made by David John Armstrong, who confirms that Mr. Hare informed the assignee of the application, Aerospace Composite Technologies Ltd. (Aerospace), that he was moving to New Zealand after leaving employment with Aerospace.

Another statement is made by Sylvie Cook, a patent administrator with Aerospace's UK patent attorneys, Barker Brettell. This statement includes the search results of Internet searches conducted to locate Mr. Hare, including a search of the New Zealand White Pages website.

Another statement is made by Arie Pellikaan, a paralegal with Klarquist Sparkman LLP patent attorneys representing Barker Brettell. This statement confirms that the listing for a G G Hare in the New Zealand White Pages is not George Graham Hare.

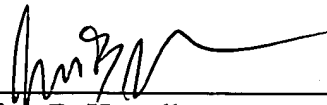

Since Mr. Hare is unavailable to sign the Declaration, Applicants request that prosecution of the application proceed in the name of the other inventors. If any issues remain concerning this petition, the Patent Office is invited to call the undersigned to discuss such matters.

Respectfully submitted,

KLARQUIST SPARKMAN, LLP

**STATEMENT OF FACTS IN SUPPORT OF FILING ON BEHALF OF
UNAVAILABLE INVENTOR UNDER 37 C.F.R. §1.47(a)**

1. I am a paralegal with Klarquist Sparkman LLP patent attorneys representing Barker Brettell, the U.K. patent attorneys representing Aerospace Composite Technologies Ltd. (Aerospace), the assignee of the above-identified application by an assignment from inventors Aristedis Anthony Ikiades, David John Armstrong, and Mary Konstantaki. The application also identifies George Graham Hare as a co-inventor.

2. To the best of my knowledge, Mr. Hare's last known mailing address prior to his emigration to New Zealand was 5 Mayfield Close, Shipton Bellinger, Tidworth, Hampshire, SP9 7YG, England.

3. The New Zealand White Pages website has a listing for a G G Hare of Kaeo, New Zealand having the telephone number 0-9-405 1881 (Exhibit A). On January 29, 2007, I telephoned this number and spoke to a Gladston Hare. Thus, it is clear that the G G Hare listed in the New Zealand White Pages search results is not George Graham Hare.

4. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

STATEMENT OF FACTS IN SUPPORT OF FILING ON BEHALF OF UNAVAILABLE
INVENTOR UNDER 37 C.F.R. §1.47(a)

1. I am a co-inventor of the above-identified application. The application also identifies George Graham Hare, Aristedis Anthony Ikiades, and Mary Konstantaki as co-inventors. I am employed as a Projects Engineer by Aerospace Composite Technologies Ltd. (Aerospace), the assignee of the application by an assignment from me, Mr. Ikiades, and Ms. Konstantaki.

2. To the best of my knowledge, Mr. Hare's last known mailing address prior to his emigration to New Zealand was 5 Mayfield Close, Shipton Bellinger, Tidworth, Hampshire, SP9 7YG, England.

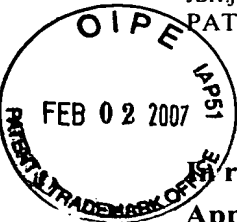

3. Mr. Hare was employed by Aerospace at the time International Application No. PCT/GB2003/002600 was filed. Mr. Hare has since left employment with Aerospace and had informed the company that he was moving to New Zealand. I spoke to Jane White (Personnel Director), who reviewed Aerospace's records and found that Mr. Hare did not provide Aerospace a forwarding mailing or email address or emergency contact information.

4. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

**STATEMENT OF FACTS IN SUPPORT OF FILING ON BEHALF OF
UNAVAILABLE INVENTOR UNDER 37 C.F.R. §1.47(a)**

1. I am a patent administrator with Barker Brettell patent attorneys representing Aerospace Composite Technologies Ltd. (Aerospace), the assignee of the above-identified application by an assignment from inventors Aristedis Anthony Ikiades, David John Armstrong, and Mary Konstantaki. The application also identifies George Graham Hare as a co-inventor. Although diligent efforts have been made to contact Mr. Hare for signing a Combined Declaration and Power of Attorney (Declaration), current contact information for Mr. Hare could not be determined.

2. To the best of my knowledge, Mr. Hare's last known mailing address prior to his emigration to New Zealand was 5 Mayfield Close, Shipton Bellinger, Tidworth, Hampshire, SP9 7YG, England.

3. Mr. Hare was employed by Aerospace at the time International Application No. PCT/GB2003/002600 was filed. I have corresponded with co-inventor David J Armstrong (Projects Engineer), at Aerospace, who indicated that Mr. Hare has since left employment with Aerospace and that Mr. Hare had informed the company that he was moving to New Zealand.

Mr. Armstrong also spoke to Jane White (Personnel Director), who reviewed Aerospace's records and found that Mr. Hare did not provide Aerospace a forwarding mailing or email address or emergency contact information.

4. I conducted several Internet searches to find Mr. Hare's current email and/or mailing address. The Internet searches did not turn up any contact information for Mr. Hare. The results of the Internet searches are attached hereto as Exhibit A and Exhibit B.

5. I also telephoned the New Zealand White Pages to find Mr. Hare's current telephone number. I was informed that the New Zealand White Pages does not have any person named George Hare listed in any of its directories. Exhibit B

6. However a search on New Zealand White Pages website did list a G G Hare of Kaeo, New Zealand – page 2/2 of White Pages Search Results (Exhibit B). Further Internet searching revealed a Gladston Glen Hare mentioned in 'Decision Report of the District Plan Hearings Committee' of 10 July 2003 which mentions the Northland Regional Council. The title page of the Decision and page 124 of the Decision which mentions Gladston Glen Hare also form part of Exhibit B. Information regarding the Northland Regional Council, including map and Cities and Towns which form the Council is included in Exhibit B.

7. The above-mentioned 'Decision Report of the District Plan Hearings Committee' is dated 10 July 2003. The filing date of International Patent Application No. PCT/GB2003/002600 is 17 June 2003. George Graham Hare executed a PCT power of attorney on 5 September 2003 when he was still employed by Aerospace Composite Technologies Limited of Luton, Great Britain, prior to his emigration to New Zealand. A copy of the executed power of attorney is also included in Exhibit B.

8. A search of the Census of New Zealand revealed that the last full Census for New Zealand was conducted in 2001 and, therefore, the next Census will be in 2011.

9. In view of paragraphs 5, 6, 7 and 8 it is clear that the G G Hare listed in the White Pages search results is not George Graham Hare.

10. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true, and further that these statements were made with the knowledge that willful false statements and the like are punishable by fine or imprisonment, or both, under §1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

DECISION REPORT OF THE DISTRICT PLAN HEARINGS COMMITTEE

Topic: Chapter 11.2 Indigenous Flora & Fauna

Session Number: 12

Report Number: 7

Date: 10 July 2003

Subject Matter: Methods - Strategic Overview

STRATEGIC OVERVIEW OF METHODS FOR ACHIEVING THE PURPOSE OF S6(C)**Introduction**

Chapter 11.2 has attracted a large number of submissions and further submissions. Overall, there is considerable agreement as to the aims of the PDP and the need for monitoring, better information, education and incentives. However the methods used to protect areas of significant indigenous vegetation and significant habitats of indigenous fauna in the General Rural and Minerals Zones are contentious. Broadly, the Ministry for the Environment, farming and forestry interests support the status quo (the “voluntary system” set out in Methods 11.2.5.8 -10 and Rule 11.2.6.1.2) whereas the Department of Conservation, Northland Regional Council and conservation interests seek rules. Several approaches to writing rules for the GR and Minerals Zones are suggested as well as detailed changes to the rules already applicable in the other zones. The Ministry for the Environment stresses the importance of monitoring and seeks improvements in this regard.

In the General Coastal and Other Zones, there is widespread support for rules when used in conjunction with development bonuses, incentives and other non-regulatory methods.

The DP Hearings Committee’s task is to decide upon a “policy mix” that addresses the requirements of s6(c), with particular reference to the GR and Minerals zones. To assist in that task, this report provides:

1. A thumbnail sketch of the positions taken by the main parties and their concerns;
2. The main options for dealing with vegetation clearance in the GR and Minerals zones as set out in various submissions;
3. An analysis of the effectiveness of the “voluntary system” compared to rules;
4. The costs to landowners of fencing, pest control, planting and vegetation clearance;
5. Compliance monitoring;
6. The status of “state of the environment” monitoring;
7. Discussions and suggestions

321/9	D Alderton Owhareiti Farms Ltd,	Support Methods 11.2.5.8-11.2.5.18 inclusive. Will promote good relationships between Council and landowners.	Retain Methods 11.2.5.8-11.2.5.18 inclusive.
329/3	Alan Darvall Poulton	Commentary on voluntary system as being "untried and therefore less certainty of outcome" is totally incorrect.	Retain voluntary system of vegetation clearance in the General Rural Zone. Limit rules to those proposed in 11.2.6.1.1 and 11.2.6.1.2. Encourage voluntary co-operation with the Council.
400/9	John & Lila Klarieich	Strongly support the Methods in the Plan.	None stated.
1165/23	<i>Anne G S Gambrill</i>		
451/2	O Baxter Federated Farmers, Bay of Islands Branch,	Support voluntary protection of indigenous vegetation.	Retain voluntary protections methods in Plan.
457/4	Pamela Elsie Weber	Support non-regulatory methods and voluntary protection of areas of significant indigenous vegetation and habitat to apply in the GR Zone.	Retain voluntary methods of protection of indigenous vegetation.
459/3	Gladston Glen Hare	Refer 457/4.	Refer 457/4.
460/3	E Weber Weber Farms Ltd,	Refer 457/4.	Refer 457/4.
465/1	Linda Jeanette Dodds	Support Methods 11.2.5.8 through 11.2.5.10.	Retain Methods 11.2.5.8 through 11.2.5.10 as written.
466/1	Gilbert John Dodds	Refer 465/1.	Refer 465/1.
468/1	Jack Colin Barber	Refer 465/1	Refer 465/1
469/1	Heather Faye Christian	Refer 465/1	Refer 465/1
481/5	Wayne George Kemp Andrewes	Support voluntary protection of indigenous vegetation on private land.	Retain policy of voluntary protection - extend to include outstanding landscape features, units and outstanding natural features.
483/1	Raewyn Messham	Support non-regulatory methods and the establishment of a SNA Committee.	Retain non-regulatory methods for voluntary protection of SNA's.

Northland Region

BEST AVAILABLE COPY

From Wikipedia, the free encyclopedia
(Redirected from Northland (region), New Zealand)

The **Northland Region**, one of the 16 regions of New Zealand, is, as the name suggests, the northernmost of New Zealand's administrative regions. The main centre is the city of Whangarei.

Geography

Northland is located in what is often referred to by New Zealanders as the *Far North*, or, because of its temperate climate, *The Winterless North*. It occupies the upper 80% of the 285 kilometre-long North Auckland Peninsula, the southernmost part of which is in the Auckland Region.

Stretching from a narrowing of the peninsula close to the town of Wellsford, Northland extends north to the tip of the North Auckland Peninsula, covering an area of 13,940 km², a little over five per cent of the country's total area. It is bounded to the west by the Tasman Sea, and to the east by the Pacific Ocean. The land is predominantly rolling hill country. Farming and forestry occupy over half of the land, and are two of the region's main industries.

Although many of the region's kauri forests were felled during the 19th century, some areas still exist where this rare giant grows tall. New Zealand's largest tree, Tane Mahuta, stands in the Waipoua Forest south of the Hokianga Harbour.

The western coast of the region is dominated by several long straight beaches, the most famous of which is the inaccurately named 88 kilometre-long stretch of Ninety Mile Beach in the region's far north. Two large inlets are also located on this coast, the massive Kaipara Harbour in the south, which Northland shares with the Auckland Region, and the convoluted inlets of the Hokianga Harbour.

The east coast is more rugged, and is dotted with bays and peninsulas. Several large natural harbours are found on this coast, from Parengarenga close to the region's northern tip, past the famous Bay of Islands down to Whangarei Harbour, on the shores of which is situated the region's largest population centre. Numerous islands also dot this coast, notably the Cavalli Islands, the Hen and Chickens Islands, Aorangaia Island and the Poor Knights Islands.
